**Home:** Av. São José, 600, Cristo Rei, 80050-350 Curitiba (Brazil)

## ABOUT MYSELF

Information Technology professional with a solid academic background and extensive practical experience. I hold a degree in Information Security from the Public Faculty of Technology of Ourinhos, with specializations in DevOps from Cruzeiro do Sul University and Security and Computer Networks from Universidade Positivo. Additionally, I am a certified IT Technician from Jacinto Ferreira de Sá State Technical School. All of my certifications and degrees are from Brazilian institutions.

I stand out as a self-taught and proactive professional with excellent leadership and communication skills. I possess strong teamwork abilities, quickly adapt to new technologies and methodologies, and am committed to the continuous development of both personal and professional skills. I am seeking opportunities in the technology field that will allow me to grow professionally and contribute significantly to the success of the team and the company.

Furthermore, I am looking for opportunities in the technology sector across the European continent, with the possibility of relocating to another country, I also have the advantage of holding Italian citizenship with valid documentation.

## WORK EXPERIENCE

### Infrastructure Analyst III - Hybrid work

*DirectCall* [ 02/03/2023 – Current ]

City: Curitiba | Country: Brazil

- Linux Server Management (RedHat, Debian, and others)
- Access management with FreeIPA
- Setup and management of FTP, Samba, DNS Bind9, and other services
- Kaspersky Antivirus implementation and management
- Zabbix Server configuration and monitoring, integrated with Grafana
- Kubernetes Cluster management using Rancher
- 3CX machine setup and DNS configuration
- Datadog implementation for server and DBMS monitoring
- SSL certification with Certbot - Let's Encrypt
- Network and server troubleshooting
- Jenkins server setup and automation with shell scripts

### Infrastructure Analyst II - On Site

*Agrotis Agroinformática LTDA* [ 31/10/2022 – 17/02/2023 ]

City: Curitiba | Country: Brazil

- Virtual server creation, live migration, and maintenance using Proxmox
- Kaspersky Antivirus management and security policy enforcement
